Instructions

HEARTWORMS ARE PARASITES THAT LIVE IN THE HEART. THEY ARE TRANSMITTED BY MOSQUITO BITES FROM ONE INFECTED PET TO ANOTHER. WE RECOMMEND THAT YOUR PET BE TESTED FOR HEARTWORMS YEARLY AND PLACED ON A PREVENTIVE MEDICATION. HEARTWORM DISEASE IS SERIOUS AND IS MUCH EASIER TO PREVENT THAN TO TREAT. HEARTWORM DISEASE IS NOT TREATABLE FOR CATS, ONLY PREVENTABLE.

A FEW PETS MAY EXPERIENCE SOME LETHARGY AND SORENESS FROM THE VACCINATIONS. IF THIS PERSISTS LONGER THAN 24 HOURS, PLEASE CALL OUR OFFICE.

THE MEDICATION DISPENSED TODAY IS AN ANTI-INFLAMMATORY AS WELL AS A PAIN MEDICATION. MONITOR FOR VOMITING AND DIARRHEA (BLACK TARRY STOOLS.) IF YOU SEE EITHER OF THESE PLEASE STOP THE MEDICATION AND CALL US.
